### DETAILED ACTION

1. Applicant's amendment and accompanying remarks filed on April 23, 2003 have been acknowledged.
2. Examiner acknowledges that the previous Office Action dated January 27, 2003 is a Non-Final Rejection. The finality of the Office Action has been withdrawn.
3. The rejection of claims 1, 3-6 and 8 under 35 U.S.C. 103(a) as being unpatentable over Harkonen et al., U.S. Patent Number 5,314,759 is withdrawn due to applicant's argument.

### *Claim Rejections - 35 USC § 102*

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1 and 5-6 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 07-122364.

The Japanese reference discloses a phosphor thin film used in a thin film electroluminescence panel wherein the matrix material consists of a compound expressed by the formula  $AB_2C_4:Re$  wherein A can be ytterbium or europium, B can be aluminum, gallium or indium, C can be sulfur or selenium and Re is a rare earth additive as per instant claims 1 and 6 (see abstract).

Additionally, the reference also disclose in column 1, paragraph 3, that the rare earth additive can

Art Unit: 1774

be europium as per instant claim 5. The reference meets all the limitations of instant claims 1 and 5-6.

6. Claims 3-4 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

*Response to Arguments*

7. Applicant's arguments filed April 25, 2003 have been fully considered but they are not persuasive. Applicant's arguments with respect to claims 1 and 5-6 have been considered but are moot in view of the new ground(s) of rejection.
